

DrugWipe®

Fast – Flexible – Reliable

Rapid drug testing

Optimal support for efficient screening

Our customers particularly value DrugWipe® rapid tests for their easy handling and the unique design for minimal sample volume.

NEW: reduced testing time

DrugWipe® product benefits

- ✓ **Certainty in detection of consumption:** overall reliability greater than 95%
- ✓ **Faster test results:** analysis in 3 to maximum of 8 minutes
- ✓ **Easy to read:** distinctive test lines appear in cases of drug use

Saliva sampling

DrugWipe® S – Saliva tests

Certain detection of cannabis consumption

Our new detection technique with DrugWipe® S Saliva tests ensures that even small traces of cannabis are seen:

DrugWipe® S product benefits

- ✓ The detection limit of the active substance Δ^9 -THC in saliva is now **10 ng/ml**.
- ✓ Cannabis concentration equivalent in blood is down around **1 ng/ml**.
- ✓ All results remain valid and can be evaluated for 10 minutes after the test is completed.

The results of traffic checks in many countries confirm the efficiency of multi-parameter DrugWipe® S tests. In particular, this can be seen after evaluating a large deployment of saliva drug testing (Nature One, Germany 2011):

Types of drugs		Can	Amp/Met	Coc	Opi
Sensitivity	[%]	94	100	100	100
Specificity	[%]	100	99	98	100
Accuracy	[%]	98	99	98	100

Surface sampling

DrugWipe® A – Universal tests

For surfaces, sweat and saliva

The universal DrugWipe® A is for trace detection on all surfaces and also to verify consumption.

DrugWipe® A product benefits

- ✓ **Flexible** – Single tool for a wide range of applications
- ✓ **Individual** – Single and multiple parameter tests available on request
- ✓ **Easy to use** – Quick and hygienic sampling with rapid results

References and application

DrugWipe® rapid drug tests are currently used on every continent, contributing to greater road traffic safety and the detection of drug trafficking. DrugWipe® is deployed in the police forces of most German federal states as well as in many European countries, for example, in Belgium, Finland, France, Switzerland and the Czech Republic.

33 countries worldwide are supplied with DrugWipe®

Practical application and specific customer requirements are Securetec's unique selling point. For over 15 years, many law

enforcement agencies around the world have been our close partners and provide hands-on feedback to continually improve the product. DrugWipe® has convinced our customers with its fast, reliable and flexible application and its excellent on-site analysis.

DrugWipe® has established itself as the leading screening test in traffic controls and targeted investigations against drug trafficking.

Customs and special units of the Federal Police also use DrugWipe® rapid tests to fight drug-related crime.

Securetec stands for quality

In-house research and production

10% of Securetec's
revenue is
reinvested in our R&D department

Securetec develops and produces application-specific products in Germany. We are constantly expanding our expertise in close cooperation with research institutes as well as with national and international authorities and companies. The results are

customised DrugWipe® - versions and other rapid test products with certified quality. International comparative studies prove that we meet high expectations with

government agencies in over 30 countries. Our goal is to set highest standards in the field of drug screening. Our medium-sized company sells about one million drug tests every year, which puts us among the world's leading providers of on-site drug tests and makes us to the global leader in police roadside drug screening. We identify ourselves as a responsible employer who contributes to the safety of every citizen. Based on this understanding, we are also engaged in drug prevention and rehabilitation work.
